b. The revised version of the test on Introduction to Intelligence has been typed, reproduced and assembled. This version of the test will be used on Friday, 10 May for the first time. 25X1

c. [ ] discussed with [ ] the Signal Center's proposal for a special version of the Introduction to Intelligence. [ ] indicated that he had no objections to omitting Introduction to Communism material from the proposed program. 25X1

d. In order to accommodate the unexpectedly large number of persons who wish to attend [ ] lecture on 9 May, we have changed slightly the Introduction to Intelligence schedule so that Dr. [ ] lecture can be given in the R & S Auditorium. 25X1

e. On Tuesday, 7 May we were confronted with a potentially serious problem in our planning for the special course for Security Office personnel. [ ] informed us that it would be necessary for him to run 25X1 a Counterespionage Operations Course beginning either 3 or 10 June in order to satisfy demands for the course. Since we are committed to cover the counterespionage unit of the Security Officers course during 18 through 21 June, and since there is an insufficient supply of training materials to handle this and the Counterespionage Operations Course simultaneously, it seemed that a modification of the Security Officers Course might be necessary. However, after discussions with [ ] and [ ] and a review of the training material in question, it was decided that the two programs can be conducted simultaneously provided that the reproduction of the training material can be handled by Misses. [ ] At this time it appears that the latter job can be done and we will begin as soon as possible.

f. [ ] has completed typing of the second case history to be used in the Security Officers program.
